

Round 5 2013

Rally.

A class that always provides great racing and this was no exception. Alvaro took the win from Chris while Rick and Andrew slugged it out right to the chequered flag. This means that Alvaro has inched ahead in the pointscore from Chris.

Ninco G.T.

On a tightish track a couple of members took the gamble of using an NC-1 powerplant but it was Alvaro with his NC-5 powered Mosler that took the honours from Chris (NC-1) and Rick (NC-5), another finish for second place going right down to the wire. Steve retains his lead in the pointscore, but narrowly from Alvaro and Chris.

Classic Rally.

Alvaro took win number three for the night two laps clear of the fabulous dice for second between Chris, Steve and Rick, less the 5 seconds covering the three of them. Chris retains his lead in the pointscore from Alvaro, with daylight back to the rest....

Stock Cars.

After the half-time break, the oval was lowered from its resting place near the ceiling and the good ol' boys got underway. A really cracking race had a funny ending when a computer glitch gave the win to Chris with Andrew in second and Alvaro rounding out the podium. Steve and Alvaro are now neck and neck in the pointscore, with Chris not far behind.

NASCAR.

Final event of the night and Dave P broke through for the win in a surprisingly strung out field. Alvaro nailed second with Rick grabbing the final spot on the podium. Alvaro has pulled further ahead in the pointscore from Chris.

Chris

Race Results
